

JUMPSTART

TRAMPOLINE NATIONAL TESTING

COACHES & JUDGES GUIDE

The Trampoline JumpStart Program is designed to test drills and skill specific combinations that have been identified as key to the development of the trampoline athlete. The routines are based on Levels 5-8 for three Age Groups to help with development of these future athletes.

This guide serves both the coach and judge. Each trampoline specific skill and routine will be defined. The method of judging will be included with each description.

Calculation of a Score

- *J.O. Code of Points will be used to determine all appropriate scoring and deductions.
- *All skills and routine testing will add back to appropriate values to determine the score out of a 10.0
- *Additional JumpStart skill specific deductions will be included where appropriate for deductions not addressed in the J.O. Code of Points.

Judging Requirement

- *Two judges are required for each skill and routine test.
- *Both scores are added together for a total score for each test.
- *Do not use one judge and double the score or use more than two judges.

General Rules

- *J.O. Code of Points will be used to determine skill, landing, and additional deductions.

Warm-Up

*Each athlete will have two warm-ups for each skill combination and two warm-ups for the full routine.

If only the first skill is completed, take the deduction of the one skill and add back (6.0). The maximum score would be 7.0.

Trampoline Routine for Time

There will be one person timing the routine and a Superior Judge.

Time the routine until completion of the routine or a skill touches the pads. The Superior Judge will then determine the number of skills completed correctly. If a pass is terminated at any point or skills added to the end, a 2 second per skill not done correctly will be taken. If skills are added to the end of the pass a 2 second per extra skill penalty will be taken. If an athlete hits the pads, a 2 second penalty for the skill that hits the pads will be taken. The lowest possible time is 0, no negative times will be given.

Example 1: a routine is determined to be out of 7 skills, a 2 second penalty will be taken for the 3 skills after the termination point. So $3 \text{ times } 2 \text{ seconds} = 6 \text{ second penalty off the total time.}$

Example 2: an athlete hits the pads on skill 6. The clock is stopped when the athlete hits the pads. The Superior Judge determines that the incorrect skill was done on skill 3, so judge out of 2. The time deduction would be $4 \times 2 \text{ seconds} = 8 \text{ second penalty.}$

The J.O. Code of Points applies for judging of these Skill Passes and Routines. Any changes made to the J.O. Code of Points by USA Gymnastics, goes immediately into effect for JumpStart with the time frame set by USA Gymnastics.

The following section is from the USA Code of Points for Trampoline Levels 5-8. Judging of JumpStart Passes will follow these guidelines.

1. Routine Definition
 - 1.1 Competition is comprised of a ten-skill compulsory routine.
 - 1.2 All routines are scored out of 10.0 points
 - 1.3 After the last skill, the competitor is allowed to do one more jump in a straight position (out-bounce) using the elasticity of the bed.
 - 1.4 No final routines are require
2. JumpStart Skill Passes and Complete Routines will be used for JumpStart Testing.
3. Accepted Skills
 - 3.1 Routines will be interrupted if skills other than those listed in Rule 2 are performed
4. Start of a Routine
 - 4.1 The starting order is decided by a draw.
 - 4.2 Each competitor will start upon a signal given from the Superior Judge.
 - 4.3 After the signal has been given, the competitor must initiate the first skill within one minute: otherwise there will be a deduction as follows by each of the Execution Judges:
 - * 1:01 minutes deduct 0.1pt.
 - * 1:31 minutes deduct 0.2 pt
 - * 2:01 minutes deduct 0.3 pt.

If this time limit is exceeded as a result of faulty equipment or other substantial cause, not deduction will be applied. The decision is made by the Superior Judge. Competitor's apparel may not be considered as equipment.

 - 4.4 A competitor's routine will be considered started once the first skill is initiated.
 - 4.5 If there is a faulty start, the competitor may re-start on a signal from the Superior Judge. (See Guide to Judging)
5. Interruptions of a Routine
 - 5.1 A routine will be considered interrupted if the competitor:
 - 5.1.1 Obviously does not land simultaneously on both feet on the bed.
 - 5.1.2 Does not use the elasticity of the bed after landing for the immediate continuation of the next skill.
 - 5.1.3 Touches anything other than the trampoline bed with any part of the body.
 - 5.1.4 Is touched by a spotter or spotter mat.
 - 5.1.5 Leaves the trampoline due to lack of control or insecurity.
 - 5.1.6 Does not perform the compulsory routine as required. The routine is interrupted at the point of change.
 - 5.1.7 Fails to land on both feet, under control and in an upright position
(See Guide to Judging)
 - 5.2 No credit will be given for the skill in which the interruption occurs in respect to Rules 5.1-5.7. In respect to Rule 5.1.7 no additional deductions are taken.
 - 5.3 The competitor will be judged only on the number of skills completed on the trampoline bed.
 - 5.4 The decision will be made by the Superior Judge.
